3. The three above-named SSCI staffers were briefed on late developments in Lebanon from 0830-0915 hours at CIA Headquarters (Room 7E62) by NIO for the Middle East Graham Fuller. The briefing stemmed from an initiative yesterday by Minority Staff Director Gary Schmitt who was interested in having SSCI staffers receive an update as early as possible.

[REDACTED] did an impressively complete job in a very facile manner. The staffers were appropriately grateful for the prompt briefing, each claiming he would be briefing his Senator (Bentsen, Moynihan, and Lugar respectively) before noon. Blau asked particularly incisive, intelligent questions but, as usual, tended to behave in an asocial manner during the briefing. Andreeae asks politically astute questions which it is obvious his Senator will lay on him. Fuller did a marvelous job in fielding them all and seemed to enjoy doing it. I have fed back to Fuller privately since the meeting with thanks for accommodating the staffers and complimenting him on his presentation.
